**Investor Relations Presentation** 

November 2022

## Disclaimer

#### **Forward-Looking Statements**

This presentation contains "forward-looking statements" within the meaning of U.S. federal securities laws. Words such as "anticipate," "estimate," "expect," "forecast," "guidance," "could," "may," "should," "would," "believe," "intend," "project," "plan," "predict," "will," "target" and similar expressions identify forward-looking statements, which are not historical in nature. Our forward-looking statements may include, without limitation: our future financial and operational results; our business strategy; our industry; our expected revenues; our future profitability; our maintenance or expansion projects; our projected budget and capital expenditures and the impact of such expenditures on our performance; and future economic and market conditions in the oil and gas industry. The presentation contains our guidance. Our forecasts and expectations are dependent upon many assumptions, many of which are uncertain and beyond our control. The presentation also contains operational guidance from Hess Corporation ("Hess"), which are not estimates of our management and are subject to numerous risks and assumptions, all of which are beyond our control.

Forward-looking statements are based on our current understanding, assessments, estimates and projections of relevant factors and reasonable assumptions about the future. Forward-looking statements are subject to certain known and unknown risks and uncertainties that could cause actual results to differ materially from our historical experience and our current projections or expectations of future results expressed or implied by these forward-looking statements. The following important factors could cause actual results to differ materially from those in our forward-looking statements: the direct and indirect effects of the COVID-19 global pandemic and other public health developments on our business and those of our business partners, suppliers and customers, including Hess; the ability of Hess and other parties to satisfy their obligations to us, including Hess' ability to meet its drilling and development plans on a timely basis or at all, its ability to deliver its nominated volumes to us, and the operation of joint ventures that we may not control; our ability to generate sufficient cash flow to pay current and expected levels of distributions; reductions in the volumes of crude oil, natural gas, natural gas liquids ("NGLs") and produced water we gather, process, terminal or store; the actual volumes we gather, process, terminal and store for Hess in excess of our minimum volume commitments ("MVCs") and relative to Hess' nominations; fluctuations in the prices and demand for crude oil, natural gas and NGLs, including as a result of the COVID-19 global pandemic; changes in global economic conditions and the effects of a global economic downturn on our business and the business of our suppliers, customers, business partners and lenders; our ability to comply with government regulations or make capital expenditures required to maintain compliance, including our ability to obtain or maintain permits necessary for capital projects in a timely manner, if at all, or the revocation or modification of existing permits; our ability to successfully identify, evaluate and timely execute our capital projects, investment opportunities and growth strategies, whether through organic growth or acquisitions; costs or liabilities associated with federal, state and local laws, regulations and governmental actions applicable to our business, including legislation and regulatory initiatives relating to environmental protection and safety, such as spills, releases, pipeline integrity and measures to limit greenhouse gas emissions; our ability to comply with the terms of our credit facility, indebtedness and other financing arrangements, which, if accelerated, we may not be able to repay; reduced demand for our midstream services, including the impact of weather or the availability of the competing third-party midstream gathering, processing and transportation operations; potential disruption or interruption of our business due to catastrophic events, such as accidents, severe weather events, labor disputes, information technology failures, constraints or disruptions and cyber-attacks; any limitations on our ability to access debt or capital markets on terms that we deem acceptable, including as a result of weakness in the oil and gas industry or negative outcomes within commodity and financial markets; liability resulting from litigation; and other factors described in Item 1A-Risk Factors in our Annual Report on Form 10-K and any additional risks described in our other filings with the Securities and Exchange Commission ("SEC").

As and when made, we believe that our forward-looking statements are reasonable. However, given these risks and uncertainties, caution should be taken not to place undue reliance on any such forward-looking statements since such statements speak only as of the date when made and there can be no assurance that such forward-looking statements will occur, and actual results may differ materially from those contained in any forward-looking statement we make. Except as required by law, we undertake no obligation to publicly update or revise any forward-looking statements, whether because of new information, future events or otherwise.

#### **Non-GAAP Measures**

This document includes certain non-GAAP financial measures as defined under SEC Regulation G. A reconciliation of those measures to our most directly comparable financial measures calculated and presented in accordance with GAAP is provided in the appendix to this presentation. Hess Midstream LP ("Hess Midstream" or "HESM") is unable to project net cash provided by operating activities with a reasonable degree of accuracy because this metric includes the impact of changes in operating assets and liabilities related to the timing of cash receipts and disbursements that may not relate to the period in which the operating activities occur. Therefore, Hess Midstream is unable to provide projected net cash provided by operating activities, or the related reconciliation of projected Adjusted Free Cash Flow to projected net cash provided by operating activities, or the related reconciliation of projected Adjusted Free Cash Flow to projected net cash provided by operating activities without unreasonable effort.

**Differentiated Financial Metrics** 

## Growing Adjusted EBITDA • Expanding Adjusted Free Cash Flow • 5% Targeted DPS<sup>(4)</sup> Growth

Guidance as of October 2022. (1) Information relating to Hess has been derived from its SEC filings and press releases and has not been independently verified. (2) Oil & Gas commercial contracts were effective as of January 1, 2014. Water services contracts were effective as of January 1, 2019 with a primary cost of service term of 14 years. On December 30, 2020, HESM exercised renewal options to extend the terms of certain crude oil gathering, terminaling, storage, gas processing and gas gathering commercial agreements with Hess for the Secondary Term through December 31, 2033. Terminals have no unilateral right to extend. Commercial contract for initial term of one gas gathering subsystem expires December 31, 2028 with unilateral 5-year renewal right. (3) Adjusted Free Cash Flow calculated as Distributable Cash Flow less expansion capex and ongoing contributions to equity investments. (4) Distribution per Class A Share through at least 2024.

Note: See appendix for definition of Adjusted EBITDA and a reconciliation to GAAP financial measures. Guidance as of October 2022. (1) Targeted 5% annual DPS growth per Class A Share through 2024. (2) 10% increase in distribution level for the second quarter of 2021 and a 5% increase in the distribution level for the first quarter of 2022 in addition to a quarterly increase consistent with Hess Midstream's targeted 5% growth in annual distributions per Class A share. (3) Adjusted Free Cash Flow calculated as Distributable Cash Flow less expansion capex and ongoing contributions to equity investments.(4) Debt / Adjusted EBITDA leverage on TTM basis.

# **Return of Capital to Shareholders**

Committed to Consistent & Ongoing Return of Capital

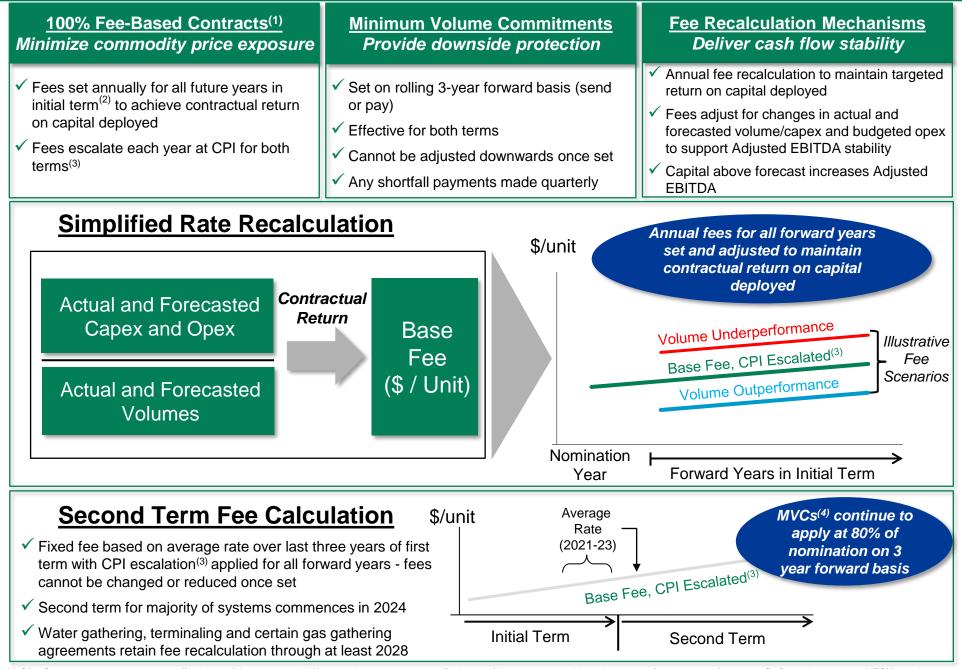

# **Stable, Growing Cash Flow**

## Long-Term Commercial Contracts with Hess through 2033

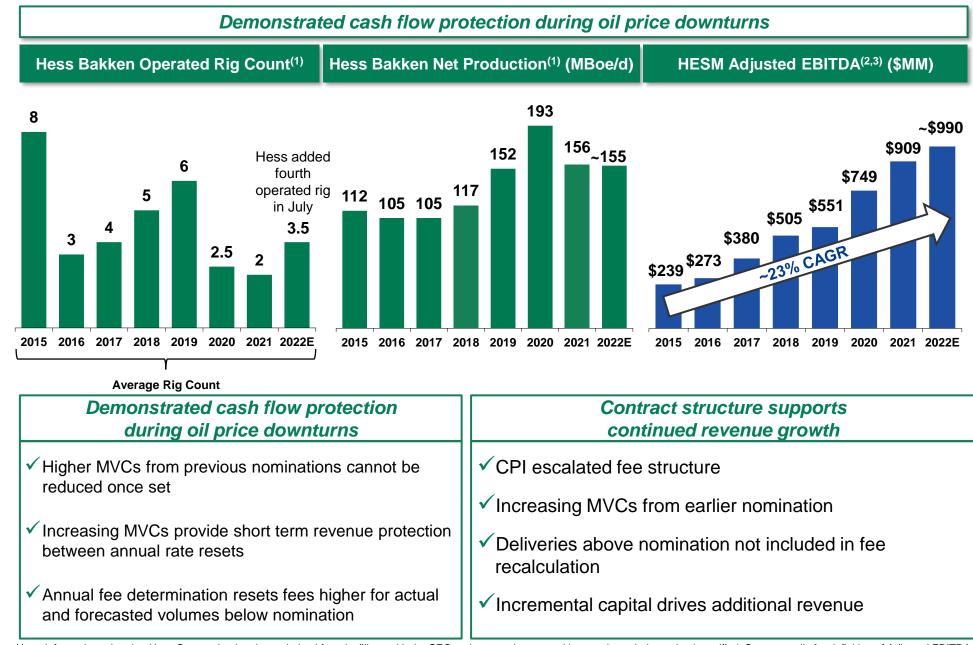

(1) Oil & Gas commercial contracts were effective as of January 1, 2014. Water services contracts were effective as of January 1, 2019 with a primary cost of service term of 14 years. On December 30, 2020, HESM exercised renewal options to extend the terms of certain crude oil gathering, terminaling, storage, gas processing and gas gathering commercial agreements with Hess for the Secondary Term through December 31, 2033. Terminals have no unilateral right to extend. (2) Commercial contract for initial term of one gas gathering subsystem expires December 31, 2028 with unilateral 5-year renewal right. (3) CPI escalation is capped at 3% p.a. (4) In the second term, MVCs are subject to a shortfall credit and there will be a timing difference between when MVC payments are received and when revenue is recognized.

# **Established Track Record**

Proven Effectiveness of Long-Term Commercial Contracts

Note: Information related to Hess Corporation has been derived from its filings with the SEC and press releases and has not been independently verified. See appendix for definition of Adjusted EBITDA and a reconciliation to GAAP measures. (1) Estimated annual average rig count and estimated annual net production reflects Hess Corporation October 2022 guidance. Hess Corporation operated four Bakken rigs as of September 30, 2022. (2) As adjusted for Hess Midstream Operations LP's acquisition of Hess Infrastructure Partners in connection with the consummation of our restructuring transaction in December 2019. (3) 2022 Adjusted EBITDA is Hess Midstream guidance, as provided in October 2022.

Values drive value for the benefit of all stakeholders

Fully aligned with Hess' position on climate change	Played key role in Hess' emissions reduction efforts through 2020	Support Hess' new 5-year emissions reduction targets for 2025 <sup>3</sup>
Support aim of Paris Agreement and a global ambition to achieve net zero emissions by 2050	<b>Investments in gas gathering</b> <b>infrastructure, natural gas</b> <b>capture &amp; flaring reduction</b> contributed significantly to Hess' outperformance of 5-year emissions reduction targets for 2020 <sup>2</sup>	Reduce operated GHG <sup>2</sup> emission intensity by <b>~50%</b> vs. 2017 Reduce methane emissions intensity by <b>~50%</b> vs. 2017 Zero routine flaring
Follow leading midstream sustainability reporting frameworks <sup>1</sup>	Making a positive social impact on communities where we operate	Executive compensation tied to EHS and climate change goals
2021 materiality assessment informed our <b>sustainability reporting</b>	<b>Proactive engagement</b> with community stakeholders and local first responders helps inform operating decisions and Hess' social investments	Bakken flaring reduction target part of Annual Incentive Plan for all Hess employees

For more information, please refer to the <u>HESM Sustainability Report</u> on hessmidstream.com

## Integrated Gas Processing and Gathering HESS

Offers Processing and Export Optionality to Hess and Third Parties

### ~500 MMcf/d of Gas Processing Capacity

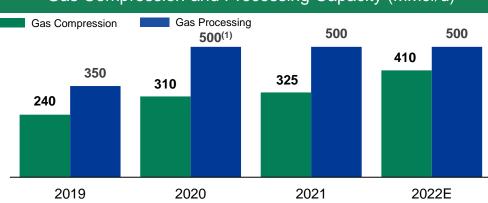

- 500 MMcf/d processing capacity, including 400 MMcf/d at the Tioga Gas Plant and 100 MMcf/d (net) at Little Missouri 4 plant
- 60 MBbl/d of NGL fractionation (incl. ethane) capacity interconnected to pipe and Rail Terminal export
- ✓ Single gas processing tariff across gas plant portfolio

### ~450 MMcf/d of Gas Gathering Pipeline Capacity

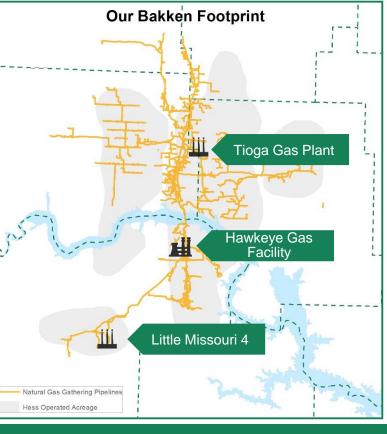

- ~1,350 miles of natural gas and NGL gathering pipelines
- ~325 MMcf/d of compression capacity, increasing gas capture

#### **Gas Capture Focus**

Contract-supported capacity expansions support gas capture and continued flaring reduction. Added ~85 MMcf/d compression capacity in 2022, expandable to ~130 MMcf/d.

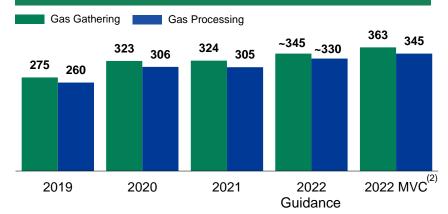

Hess

Midstream

### Gas Gathering and Gas Processing (MMcf/d)

Guidance as of October 2022

(1) Major construction completed by end 2020 for 150 MMCf/d Tioga Gas Plant expansion. (2) Please see appendix for table of Minimum Volume Commitments (MVC).

## Integrated Crude Oil Terminaling and Gathering

Offers Terminaling and Export Optionality to Hess and Third Parties

## ~385 MBbl/d of Crude Oil Terminaling Capacity

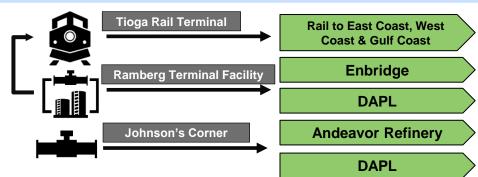

- ~285 MBbl/d Ramberg Terminal Facility (RTF) export capacity
- ~100 MBbl/d Johnson's Corner Header System export capacity
- Export optionality north/south of the Missouri River—interstate pipelines: Enbridge, DAPL, and Tioga Rail Terminal (TRT)
- TRT with connectivity to TGP, RTF and gathering systems; dual loop track with loading capacity of 140 MBbl/d
- 550 crude oil rail cars built to the latest safety standards
- ~330 MBbl/d crude oil terminal storage
- ✓ Single terminaling tariff independent of delivery location

## ~240 MBbl/d of Crude Oil Gathering Capacity

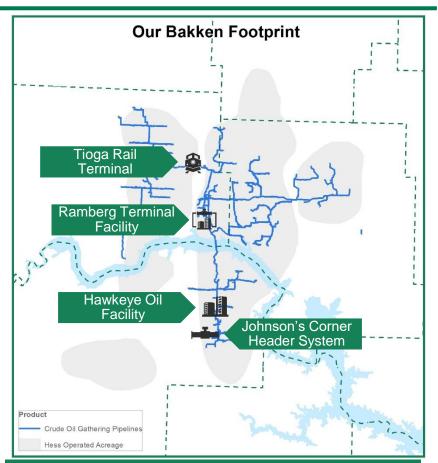

- ~550 miles of crude oil gathering pipelines
- Crude oil truck unloading north and south of the Missouri River
- Export connectivity to interstate pipelines and TRT

#### **System Optionality Focus**

## Integrated system providing crude export optionality through multiple pipelines and rail

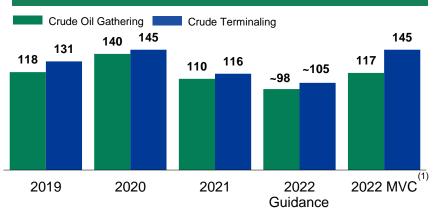

Guidance as of October 2022. (1) Please see appendix for table of Minimum Volume Commitments (MVC).

Hess

Midstream

### Crude Oil Gathering and Terminaling (MBbl/d)

# **Growing Water Services Assets**

Offers Integrated Water Handling Services to Hess and Third Parties

### **Rapidly Growing Business Line**

- Extensive water gathering footprint north of the Missouri River
- Improved safety and environmental exposure, operational efficiencies, and cost savings through gathering versus trucking
- Infrastructure reliability and quality driving future growth demand
- Pipeline gathering, produced water disposal, and trucking provide integrated service offering
- ✓ Cost of Service gathering tariff
- $\checkmark$  14-year contract<sup>(1)</sup> + unilateral 10-year renewal right
- ✓ MVCs set at 80% of nomination for 2022

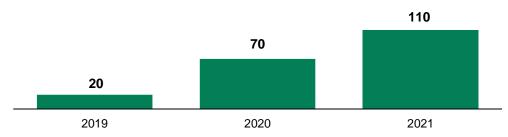

### ~270 Miles of Water Gathering Pipelines

- Positioned to support capture of incremental volume growth
- · Ability to transport produced water to disposal facilities

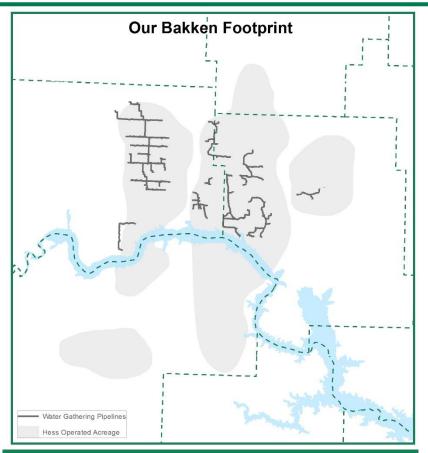

#### **Continued Growth Focus**

Low historic investment and continued system expansion creates growth opportunity to reduce produced water trucking

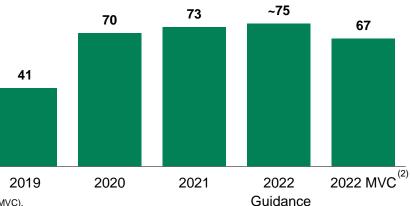

Guidance as of October 2022 (1) Contract was effective 1/1/19. (2) Please see appendix for table of Minimum Volume Commitments (MVC).

### Water Gathering (MBbl/d)

## **Disciplined Capital Allocation**

Targeted Investments to Meet Customer Demand

Stable & Focused	Capital Program <sup>(1)</sup>
Stable & I Ucuseu	Capital Flogram /

### **Expansion Capital**

2022 capital focused on:

- Completed two new greenfield compressor stations and associated pipeline infrastructure providing an aggregate 85 MMcf/d incremental capacity in 2022
- Initiate construction on third greenfield compressor station to provide an additional 65 MMcf/d capacity when brought online in 2023
- Gathering well connects to Hess and thirdparty customers

Area (\$MM)	
<b>Compression:</b> Additional gas compression to meet Hess demand	\$120
Well Connects: Interconnect of Hess and Third-Party Gas, Oil, Water Volumes	\$105
Expansion Capital	\$225
Maintenance Capital	\$ 10
Total Capital	\$235

Capital program self-funded by low risk Adjusted EBITDA generation

# **Hess Midstream's Strengths**

# 2022 Guidance

**Demonstrates Continued Free Cash Flow Generation** 

## 2022 Guidance: ~\$990 MM Adjusted EBITDA and ~\$235 MM Capex

**Guidance Highlights** 

- Expected Hess production and Hess Midstream gas capture driving volume guidance
- Expected 9% increase in Adjusted EBITDA compared to full year 2021
- ~95% revenues protected by MVCs
- Increased distribution level in the first quarter of 2022 by 5% in addition to a quarterly increase consistent with Hess Midstream's targeted 5% growth in annual distributions per Class A share
- Distributable Cash Flow (DCF) delivers targeted 5% annual DPS growth with expected full year distribution coverage greater than 1.5x.
- Expect to maintain Gross Adjusted EBITDA Margin at >75% consistent with 2020 and 2021
- Adjusted Free Cash Flow of ~\$75MM after funding targeted distributions

Throughput volumes	;	2022 Guidance	2022 MVCs	Financials (\$millions)	2022 Guidance	Increase from 2021
Gas Gathering	MMcf/d	~345	363	Net Income	~\$630	2% 🕇
Crude Oil Gathering	MBbl/d	~98	117	Adjusted EBITDA	~\$990	9% 🕇

Crude Terminaling	MBbl/d	~105	145	Adjusted Free Cash Flow	~\$615	
Water Gathering	MBbl/d	~75	67	AFCF After Distributions	~\$75	

Note: See Reconciliation to GAAP Metrics for definition of Adjusted EBITDA, Adjusted FCF, DCF, and a reconciliation to GAAP financial measures.

## **Reconciliation to GAAP Metrics**

#### **Non-GAAP Financial Measures**

In addition to our financial information presented in accordance with GAAP, management utilizes certain additional non-GAAP measures to facilitate comparisons of past performance and future periods. We define "Adjusted EBITDA" as net income (loss) before net interest expense, income tax expense (benefit), depreciation and amortization and our proportional share of depreciation of our equity affiliates, as further adjusted to eliminate the impact of certain items that we do not consider indicative of our ongoing operating performance, such as transaction costs, other income and other non-cash, non-recurring items, if applicable. "Distributable Cash Flow" or "DCF" is defined as Adjusted EBITDA less net interest, excluding amortization of deferred financing costs, cash paid for federal and state income taxes and maintenance capital expenditures. DCF does not reflect changes in working capital balances. We define "Adjusted Free Cash Flow" as DCF less expansion capital expenditures and ongoing contributions to equity investments. We define "Gross Adjusted EBITDA Margin" as the ratio of Adjusted EBITDA to total revenues, less pass-through revenues. We believe that investors' understanding of our performance is enhanced by disclosing these measures as they may assist in assessing our operating performance as compared to other publicly traded companies in the midstream energy industry, without regard to historical cost basis or, in the case of Adjusted EBITDA, financing methods, and assessing the ability of our assets to generate sufficient cash flow to make distributions to our shareholders. These measures are not, and should not be viewed as, a substitute for GAAP net income or cash flow from operating activities and should not be considered in isolation. Reconciliations of Adjusted EBITDA Margin to reported net income (GAAP) and net cash provided by operating activities (GAAP), are provided below. Hess Midstream is unable to project net cash provided by operating activities with a reasonable degree of accuracy becau
